

Amendment to Firewood Policy:

Because of the demands of adult participation in the Firewood program for delivery and operating power equipment, in the event that a representative parent or adult designee is present, and working at a firewood function and the Scout is not there working at the time, the adult designee's time may be calculated and accrue to the individual Scout's account at the same rate as the Scout if requested by the adult. The aforementioned time credit and the dollar amount it translates to, to be used only for the benefit of the Scout, not the volunteer parent in accordance with normal established practices in the troop.

Approved at Feb 9, 2009 Committee Meeting
